Your tasks:

- You will **continue to develop our Android app** and implement new features.
- You will **integrate APIs cleanly** and contribute technical solutions from the very beginning.

What you bring along:

- **Several years of experience** in Android development.
- Proficiency in **Kotlin**, Jetpack **Compose**, and Gradle.

- You will **work closely with the app team**, UX, and other teams to refine requirements and implement them.
- You will **actively help shape the architecture, code quality**, and technical standards.
- You **challenge the status quo**, try out new ideas, and drive meaningful improvements.
- You take turns with the team to handle 24/7 **on-call duty**, approximately once a month.
- Solid experience with **coroutines**, dependency injection, **MVVM**, and **Clean Architecture**.
- Experience with **GitLab CI/CD**.
- **KMM** is a plus, not a requirement.
- Good **German and English skills** (B2).
- Eagerness to **collaborate**, take on responsibility, and be part of a team that wants to make a difference together.

What we offer:

Culture

We work in flat hierarchies, treat each other as equals. At empiriecom we give you the chance to help shape things and take on responsibility.

Exchange

With us, you have the opportunity to network and exchange ideas with various experts inside and outside the Otto Group.

Agile Work

We live the agile values and give you the opportunity to work in a self-organized way within your cross-functional team while providing the opportunity to further develop yourself.

Continuing education

We attach great importance to needs-oriented further training measures. Whether technical or personal - let's talk about it together!

Flexibility

From individual development opportunities to flexible working models (time & place) - we will find a suitable solution together with you!

Innovative environment

With us you have the perspective to try out new technologies and methods and to design state-of-the-art e-commerce solutions.
